NOTES ON ELLIPTIC FUNCTIONS (FROM JACOBI).

[From the *Cambridge and Dublin Mathematical Journal*, vol. v. (1850), pp. 201—204.]

THESE Notes are mere translations from Jacobi's "Note sur une nouvelle application de l'analyse des fonctions elliptiques à l'algèbre," [*Crelle*, t. vii. (1831) pp. 41—43], and from the addition to the notice by him of the third supplement to Legendre's "Théorie des fonctions elliptiques" [*Crelle*, t. viii. (1832) pp. 413—417].
