

POLSKA AKADEMIA NAUK
INSTYTUT ZOOLOGII

ACTA ORNITHOLOGICA

Tom XXIII
Rok 1987

WARSZAWA — WROCLAW
PAŃSTWOWE WYDAWNICTWO NAUKOWE

<http://rcin.org.pl>

P. 257

Redaktor — Editor
Maciej GROMADZKI

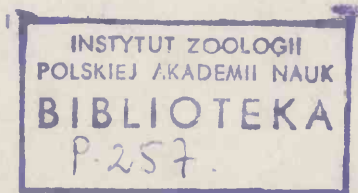

Komitet Redakcyjny — Editorial Board
Michał GOC, Wojciech KANIA

Sekretarz Redakcji — Assistant Editor
Maria WIELOCH

Rada Redakcyjna — Editorial Council

Michał BRZESKI, Kazimierz A. DOBROWOLSKI, Maciej GROMADZKI, Sędzimir M. KLIMASZEWSKI (przewodniczący), Kazimierz KOWALSKI, Maciej LUNIAK, Maciej MROCZKOWSKI, Janusz NAST, Regina PISARSKA, Bohdan PISARSKI, Jan RAFALSKI, Adolf RIEDEL, Henryk SANDNER, Wojciech STAREGA, Andrzej SZUJECKI (zastępca), Ludwik TOMIAŁOJĆ, Przemysław TROJAN, Andrzej WIKTOR

Projekt okładki — Cover design
Jerzy DESSELBERGER

Adres Redakcji — Editor's address
Instytut Zoologii Polskiej Akademii Nauk
Stacja Ornitologiczna
ul. Nadwiślańska 108, 80-680 Gdańsk 40

CONTENTS

N. J. AEBISCHER. Estimating time-specific survival rates when the reporting rate is constant. [Extended abstract]	35
D. R. ANDERSON, K. P. BURNHAM. Estimation of avian survival rates from ringing data: comments on methodology	13
S. R. BAILLIE, R. E. GREEN. The importance of variation in recovery rates when estimating survival rates from ringing recoveries	41
S. T. BUCKLAND, S. R. BAILLIE. Estimating bird survival rates from organised mist-netting programmes	89
K. P. BURNHAM. A unified framework for the comprehensive analysis of release-resampling data. [Abstract]	27
P. BUSSE. Interpretation of recovery patterns — contradictory points of view. [Extended abstract]	115
J. DABERT. Breeding ecology of the feral pigeon <i>Columba livia f. domestica</i> in Poznań, Poland	177
B. S. EBBINGE, J. B. van BIEZEN. Estimation of annual survival rates using resightings of individually marked Barnacle Geese <i>Branta leucopsis</i> , wintering in the Netherlands and northern Germany	101
L. JENNI. Analysis of recoveries of same species subgroups with similar potential recovery rates. [Extended abstract]	129
A. JERMACZEK. [Assemblages and habitat selection of waterfowl in Ziemia Lubuska (western Poland) in autumn]	197
W. KANIA, P. BUSSE. An analysis of the recovery distribution based on finding probabilities	121
K. H. LAKHANI. Optimal use of ring recovery data for estimating age-specific survival: I. Augmentation by further field information. [Extended abstract]	29
K. H. LAKHANI. Optimal use of ring recovery data for estimating age-specific survival: II. Augmentation by ringing further age groups. [Extended abstract]	31
J. D. LEBRETON, D. ALLAINE, J. CLOBERT, J. M. GAILLARD, D. PONTIER, J. TROUVILIEZ. Comparative bird demography: methods, data and preliminary results. [Extended abstract]	77
Z. LEWARTOWSKI, M. PIOTROWSKA. [Breeding birds in the valley of the Narew river, Poland]	215
H. LOKKI, P. SAUROLA. Bootstrap methods, for two-sample location and scatter problems	133
P. M. NORTH. Ring recovery analytical methods: a brief review	7
J. RINNE, H. LOKKI, P. SAUROLA. Life table solutions: any or many?	61
D. R. SMITH, D. R. ANDERSON. Effects of lengthy periods on estimators of annual survival	69
L. G. UNDERHILL. The estimation of survival probabilities using retrap and census data	81
T. WESOŁOWSKI. Polygyny in three temperate forest Passerines (with critical reevaluation of polygyny evolution hypotheses)	273
T. WESOŁOWSKI, L. TOMIAŁOJĆ, T. STAWARCZYK. Why low numbers of <i>Parus major</i> in Białowieża Forest — removal experiments	303
