

FRAGMENTA FAUNISTICA
An International Journal of Faunology
Warszawa

FRAGMENTA FAUNISTICA is an international, semiannual journal published by the Museum and Institute of Zoology of the Polish Academy of Sciences. The journal, first published in 1930, appeared under the title *Fragmenta Faunistica Musei Zoologici Polonici* until 1953. Now, it is a peer reviewed, [open access](#) journal, publishing the papers devoted to fauna – its differentiation, distribution and transformations. Faunology, which quantitatively examines the dynamics and structure of faunistic complexes is the main object. The journal publishes the results of original studies, review articles and syntheses dealing with faunology and with related sciences such as zoogeography, zoocoenology or taxonomy.

FRAGMENTA FAUNISTICA is on Thomson Reuters Master Journal List, it is reported in Biological Abstracts, BIOSIS Previews and Zoological Records.

FRAGMENTA FAUNISTICA is available from the platform of the Digital Repository of Scientific Institutes: <https://rcin.org.pl/>

INSTRUCTIONS FOR AUTHORS

A paper submitted to the FRAGMENTA FAUNISTICA must reflect the author's own research and analysis, it must not have been offered previously or simultaneously, to any other scientific magazine. Submission of a manuscript implies also that the publication has been approved by all co-authors, if any, as well as by the responsible authorities – tacitly or explicitly – at the institute where the work has been carried out.

As of 2014, FRAGMENTA FAUNISTICA applies the [Creative Commons Attribution \(CC BY\)](#) license to works. Under this license, authors retain ownership of the copyright for the content, but agree to anyone to download, reuse, reprint, modify, distribute and/or copy the content as long as the original authors and source are cited. No permission is required from the authors or the publishers in this case.

Manuscripts should be submitted in electronic version to the Editorial Board. The relevant letter from Author(s) accompanying the manuscript is required and should include the author's address(es) for correspondence, with the original name of the institution(s), fax and phone numbers and e-mail address. The letter should also contain a properly credit the contributions of co-authors and co-researchers.

Manuscripts should be submitted by e-mail to the Editor (jolawyt@miiz.waw.pl). The relevant letter from author(s) accompanying the manuscript is required. It should declare the contributions of all co-authors. Title page should include the names of the authors, the author's address(es) in English, and e-mail address of the corresponding author.

FRAGMENTA FAUNISTICA publishes in English. Papers should be concise and linguistically correct. Authors writing a paper in an unfamiliar language are advised to have the manuscript linguistically reviewed before submitting it to the editor. Poorly written manuscripts will be returned without further review. Manuscripts can only be accepted after two positive reviews. The final version of the manuscript should include both the comments of reviewers and editors.

Manuscripts must conform to the following requirements:

Title should be concise and proper to its contents. **Abstract** should explain the idea of the research and summarize the results, not to exceed 200 words and should not contain any references. **Key words** in number 3 to 7 should not be repeated in the title. **Text** should have a standard layout (introduction, material and methods, results, discussion, (possible conclusions, acknowledgements), references and a brief but comprehensive summary which will be translated into Polish. Names of genera and species must be italicised. The author's name must be added to each species (genus) names first appearing in the text or be incorporate to one of the tables in paper. **Tables** should be as simple as possible, should contain the captions and be numbered (cited as 'Table 1' or 'Tables 1 & 2'). **Illustrations** should be submitted separately as graphic files (>300 dpi) and be numbered as successive figures (cited as 'Fig. 1' or 'Figs 1 & 2'). Numerical data should be attached to plots. All captions should be enclosed to manuscript. The picture's author should be given as 'Photo by J. Bean'. Colour illustrations may be accepted by editor. Dates should be given with space, e.g. 1–2 Feb 2014. **References** should be listed in alphabetical order and conform to the format used in published issues of FRAGMENTA FAUNISTICA; book and journal titles must be given in full. It is advisable to use codes DOI in the reference list. Non-Latin names of the journals should be given according the BIOSIS Base Source The titles of the publications should be given directly in English according its editorial data or in transliteration and with free author's translation putting in square brackets directly after the title. The indication of the original language should be put in square brackets at the end of reference item. Publications with more than two authors should be cite in the text with the first author and annotation 'et al'. References in the text should be sorted out chronologically The author names should be separated by coma or by semicolon if in a citation is more than one work of one author. If data have no reference it should be cite as 'D. Spiller, pers. comm.' or 'pers. obs.' or 'unpubl. data'. **Summaries** of papers are published in Polish. Non-Polish authors should prepare the English summary.

Printed copies are charged, they can be ordered in the editorial board during editorial process. Authors receive the e-version of their paper (.pdf file).

Subscriptions and orders should be addressed to the Museum & Institute of Zoology, PAS, Library, Wilcza 64, 00-679 Warszawa. Annual subscription (2 issues) institutional: EURO 60, personal: EURO 40. Orders paid on the account on:
